Welcome Screen
When opening the app, a player is promoted to either create an account or log-in with their custom QR code
[14] [16]

Registration Screen
After pressing the create account button, the player is able to pick a username as well as enter their email
[15]

QR Code Login
After pressing the log-in with QR code button, the player snaps a photo of their log-in code
[14] [16]

Home Screen + Geolocation
Once the player has successfully logged in, they're welcomed to either submit a QR code or tap the map to see QR codes near them. Tapping the "Generate QR Code" button opens a popup.
[1] [11] [18] [19]

QR Code Generation Popup
This popup allows the user to generate a game status QR code or a login QR code.
[13]
[14]

Snap a Photo of New QR Code
Take a photo of the new QR code
[1] [8]

Submission Page
After taking a photo of the new QR code, they're able to name the QR code, see its score and voluntarily share its location/a photo
[1] [8] [25]

Sidebar
The sidebar is accessible from any page that has the menu icon in the upper left corner, from there the player can access a handful of other pages
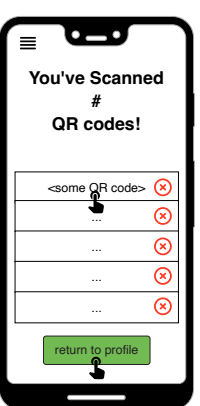

User Profile
Accessed from the sidebar, the user profile displays the users username, game status QR code, highest and lowest scoring QR codes, combined score as well as the number of QR codes scanned.
[4] [5] [6] [13] [15]

Private Personal Information
If the players wishes to view their unique login code and the email associated with the account, they can press the 3 dots in the upper right hand corner.
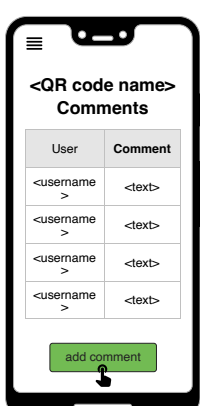

Private Personal Information
This page contains a player's unique login code and account email
[15]

List of User's QR Codes
From the profile page, if users wish to see the codes they've scanned, they press on the link next to 'QR Code Count' and are lead to a page with a list of those codes. Clicking on a QR code's X button will delete the code.
[2] [3] [10]

QR Code Information
When a user clicks on a code either from their profile or from the list of all QR codes, they are taken to this page. This page informs them of the location, score, and who else has scanned the code. If a player wishes to comment or see comments on that code, they press bottom the button. Clicking on the garbage can button will delete the code if the code is owned by the user clicking it, or if they are an owner.
[2] [3] [11] [12] [24] [27]

QR Code Comments
A list view of all comments on a single QR code, the user also has the ability to add a comment themselves.
